

Fiber optic adaptors

FC,SC,ST,LC,MU,MTRJ,singlemode and multimode,simplex and duplex ones available.

**Descriptions**

fiber optic adaptors allow users to couple from one connector type to another type.

These adaptors are comprised of a polymer/metal outer body and inner assembly fitted with a precision alignment mechanism. These adaptors are precision made and manufactured to demanding specifications.

The combination of a ceramic / phosphor bronze alignment sleeves and a precision moulded polymer housing provides consistent long-term mechanical and optical performance.

Features

Easy Installation

High Precision

Low insertion Loss

Specifications

Insertion loss	≤ 0.2 dB
withdrawal force(g/f)	200-600
Durability(1000 Mating)	0.2dB max increase
Operating temperature	-40 to +75
