

## Fiber Optic Loopback

SC,MT-RJ,LC,MU etc types available.

### Descriptions

Fiber Optic Loopbacks is designed to provide a media of return patch for a fiber optic signal; typically it is used for fiber optic testing applications or network restorations. For the testing applications, the loopback signal is used for diagnosing a problem. Sending a loopback test to network equipment, one at a time, is a technique for isolating a problem.

### Features

Compact design  
Compatible with Fast Ethernet, Fiber Channel, ATM and Gigabit Ethernet  
Short wavelength devices  
Custom assemblies available

Items	Single mode fiber	Multi mode fiber
Insertion Loss (dB)	$\leq 0.2$	
Exchangeability	$\leq 0.2$ (500 cycle passed)	
Temp. Range	$\leq 0.2$ dB ( - 40 to +80 degree centigrade)
